From the 1915 Ever-Sharp mechanical pencil to today's Imager Series Advanced Digital Document Systems, Sharp has remained in the forefront of exceptional product development and marketing throughout the century. Welcome to yet another innovative pacesetter...
This unique program is already working for you! Every one of your Sharp Digital Copier placements since November 1, 1998 and Systems Facsimile Placements since April 1, 1999 has earned valuable Award Points. Now it's time to claim them.
Utilizing the simple navigation menu on the left, review the General Rules, become familiar with the Program Rules and then proceed to Placement Entry.
Your placements are recorded and your Award Points calculated immediately! Click on Account Info anytime to review your progress. As your placement verifications are received and confirmed, your Award Points become valid and redeemable.
Browse the Awards Catalog for hundreds of thrilling items your Award Points can bring you and your family.
Ever-Sharp Performance includes two new and exciting elements. The e-Force provides special recognition and bonuses for top performers and the Auction House will give you opportunities to bid Awar Points for bargains and the unusual. Go to these pages often to stay up-to-date.
Get started today and make every Digital placement count!

Short Description	This turn of the century lamp is an excellent example of eglomese, the reverse painting on glass technique of Art Nouveau artist Philip J. Handel. The glass dome, hand painted on the inside with a profusion of purple, blue and yellow irises, casts a soft muted glow of color and light when lighted. Antiqued bronze-finished metal base. The glass dome is fired in kilns at 1300 degrees fahrenheit, permanently fusing the brilliant colors into the glass 20"H x 14"W.
